

Good afternoon Legislators and members of the Transportation Committee, ***my name is Clara Moreno. I Live in West Haven, CT 06516. I am a parishioner of Saint Louis Church*** and I am here to testify in favor of the bill No. 6037.

I, as an undocumented immigrant, am making this petition for a driver's license. This bill is very important and necessary for many of us here in this room.

I have to drive to and from work every day without a license, knowing that what I am doing is illegal. I feel required to do this anyway because I am a mother of three children and I need to work so I can help in supporting my family.

If I can obtain my driver's license, everything will be different for me and for us drivers. I would have the training to get my license, I would pay the taxes for my car for this state, and I would have the insurance and registration of my car in my name.

Thank you for listening,

Maria Clara Moreno
